

VERIFYING YOUR INSURANCE

As a courtesy to our patients, at the time of your 1st visit we will contact your insurance company to verify your benefits. When we do this the insurance representative on the phone tells us *“this is a quote of benefits and does not guarantee coverage, all benefits will be determined at time of claim submission”* Because of this we recommend all patients also call their insurance company to verify benefits for themselves.

We have created this guide to help you verify your insurance benefits. On the back of your insurance card there should be a number for you to call.
